

ESPECIALLY PREPARED FOR MRS HERMIEN GLUCKLER

Professional packing is of the utmost importance.

We at Pulse International Removals only use the highest grade packing material available. All materials are specifically designed to accommodate your removal requirements.

As a member of the Professional Movers Association we adhere to all requirements set out by the association to protect and transport your household furniture as per International Standards.

Our packing material is marked with our logo and all boxes have a “room”, “item”, “name”, and “carton number” printed on the carton to assist our valued clients at destination.

International moving is a stressful period for the family. We at Pulse International Removals pride ourselves on the fact that we strive to remove the word Stress from your relocation.

Over the years we have forged relationships with the most professional of international destination agents, further providing you with the peace of mind that you are not alone when you arrive.

The planning and organisation with which we carry out your relocation, guarantee that every element of the process is informative and clear to both parties.

Our professional crating division will measure, prepare and crate all sensitive items, i.e. mirror, artefacts, display cabinets, paintings and antiques to ensure their safe arrival at destination. All crated items are pre-packed in our specialised protective material.

Our highly trained staff will take care of all your removal requirements whether it is long distance, International or Local or Office Removals.

Our commitment is your guarantee.

All furniture placed into store will be packed into wooden pallet boxes to reduce unnecessary handling. Our facilities are monitored 24 hours a day with armed response and motion sensors throughout the warehouse.

We have various size vehicles to cater for all types of household as well as office moves from the very large to just a few items.

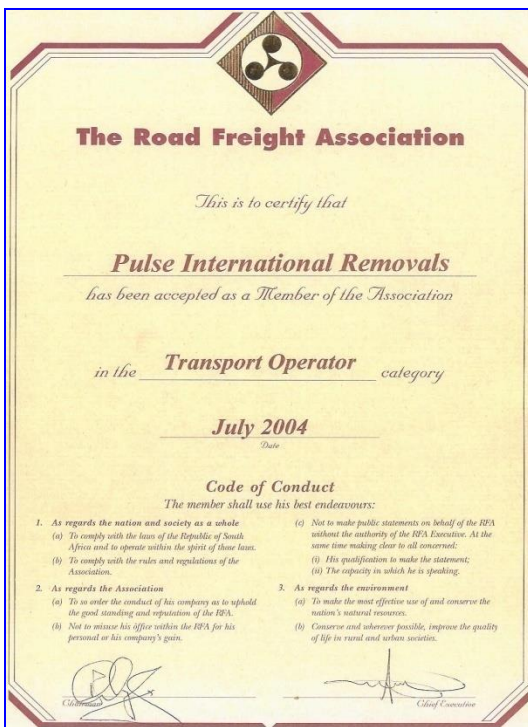

Our large fleet is constantly maintained to guarantee that when we pledge to be there “we are”.

All furniture placed into store will be packed into wooden pallet boxes to reduce unnecessary handling. Our facilities are monitored 24 hours a day with armed response and motion sensors throughout the warehouse.

We export motor vehicles. The vehicles are professionally crated and furniture can be loaded on top of the crate to maximize the space usage. Pulse will do all the export documentation on your behalf.

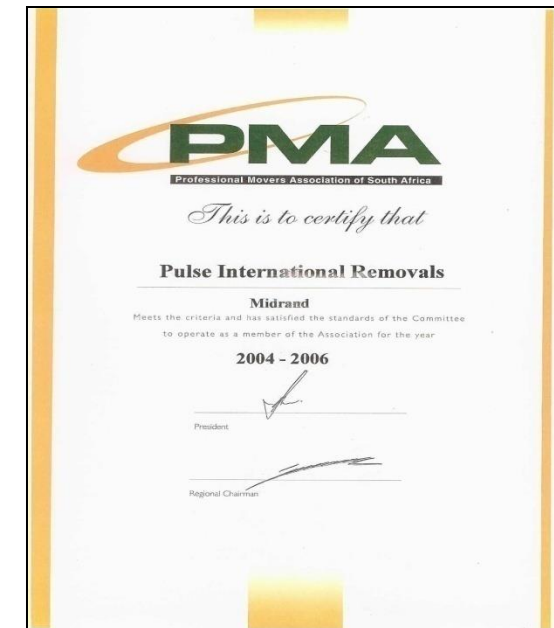

We at Pulse International Removals adhere to the Internationally recognised Governing Bodies. Guaranteeing your “peace of mind” throughout the removal process.

Pulse International Removals were one of the first removals companies to be awarded the Proudly South African Certificate.

Dear Mr. Koekemoer,

On completion of your removal, we would greatly appreciate your assistance in completing and signing this form and handing it back to our supervisor:

I, Chap. Koekemoer, hereby acknowledge that I have been afforded the opportunity to personally inspect the truck and make sure that all my personal effects have been removed. I further acknowledge that I have gone through all the blankets and am satisfied that no small items may have been in the truck in error.

Cell: 083 327 2666

We would also appreciate a small comment on the service you have received from the Supervisors and Crew.

REMARKS: Excellent Service - Thank you

DATE: 22/07/05

Thank you for taking the time to sign and complete this performance report and should you require our service any time in the future, please do not hesitate to call our office.
